

DOES IRELAND HAVE A 20TH CENTURY CONCRETE-BASED CULTURAL HERITAGE?

*A group presentation with contributors from the
20 of the 20th InnoVaConcrete survey project
Helen Roe Theatre, 6pm, 11th September 2018*

The InnoVaConcrete 20 of the 20th project involved a joint endeavor from ICOMOS Ireland and DoCoMoMo Ireland members. Following online collaboration from a number of 20th century experts from slightly different fields, ICOMOS Ireland made a submission to the project, selecting 5 buildings on the basis of a range of typologies, ownership and use of concrete, across the country.

The presentation will involve contributions from experts involved in the project submission, followed by a discussion session.

Tickets are Free at [EventBrite.ie](https://www.eventbrite.ie)
